

	<p>This notepad is intended to guide you in logging your reflections on particular topics of this course. It is divided into five (5) sections, such as:</p> <ul style="list-style-type: none">(1) My Key Take-aways(2) Grateful Points(3) Pain Points(4) Anticipated Hurdles(5) Possible Actions <p>You may draft your thoughts in bullets, then finalize them in concise paragraphs.</p> <p>Shade the box of “How Well I Did in this Topic” to indicate your assessment of your achievement of the intended learning outcome for the session.</p> <p><i>Color legend:</i> BLUE - excellent; GREEN - very good; YELLOW - good; RED - fair</p>		
Reflection Log #	1	Topic	The Three Literacies
Student’s Name:	BALA, MARIELLA KASSANDRA M.	How Well I Did in this Unit	Great
My Key Take-aways What points, ideas or concepts do you think are most important for you to remember about this lesson?			
<p>From the three media literacies, I learned multiple concepts that I now give more value to and always keep in mind when dealing with media, information, and technology. Firstly, advocating for media justice being one of the benefits of media literacy would be one of my striving forces as someone who uses and consumes media, to be a better medium and use media for the better. Being able to understand and be equipped with proper knowledge in terms of media, enables me to become a more responsible consumer of media and a knowledgeable medium. Further, with all of the concepts under the three literacies, I believe all are important as these lessons would be able to shape people into better people and good citizens who are responsible.</p>			
Grateful Points What qualities or gifts do you have that you think would be helpful to deepen your new learning of this lesson?		Pain Points What difficulties did you experience that may have prevented you from efficiently learning this lesson?	
<p>Being a person who uses media, information, technology allows me to put to use the three literacies, this makes me grow and develop to be a more responsible user and consumer of media, information, and technology.</p>		<p>Being sick and having to be absent kind of prevented me from learning the lessons, as I wasn't present in the live discussions, also being mentally prepared kind of hindered me from fully knowing the lesson, because it would enter my brain but it doesn't really process in my mind.</p>	

Anticipated Hurdles If you were to apply what you have discovered in this week's lesson, what challenges would you likely encounter?	Mitigating Hurdles What action can you do to prevent or address your anticipated challenges?
Probably confusion in terms of my understanding of the lessons and me forgetting certain parts of the lesson would be a challenge for me.	To make sure that I review and recall the lessons to not forget nor be confused with the lessons and concepts.
